10:00 AM – 12:30 PM Temple Within School of Sacred Studies in Lowell MI

Relax one Saturday morning each month and enjoy these monthly intensive workshops which are designed to help *serious* students of the esoteric on a very personal level to develop and gain confidence in their extra sensory perceptions while coming to understand the unseen worlds that exists around and within them.

This in depth series of workshops based on the ancient study of “Angelology.”

Angelology comes from the Greek word "angelos" which means **angel** and the Greek word "logos" which means word or study. Therefore, **angelology** is the study of angels.

Angels exist in many forms, both seen and unseen in the realms of Light and Dark. Their existence is acknowledged in religious teachings as well as spiritual pathways all around the world. And yet, they are often misunderstood. The Angelis are far more than mere fodder for legend, lore and fanciful tales, they are a living part of a vast and potent world of Creation.

Our interaction with them is dependent upon knowing of their existence, understanding the terrains of their being and learning how to work with them in a sacred manner. From the fiery angels known as Seraphim to the astral, earthly order of Angels, Denise will lead a study of the Nine Orders of Angels, their hierarchy, purpose and sacred calling.

Each class will include intensive study of angels as well as practical application of study and psychic seer training. A certificate of completion will be issued to all students who complete the entire course of study.

Please register for each Angelology intensive (\$65) online at www.TempleWithin.com.
