## Leadership in Spirituality

Rev. Laura MacLachlan & Denise Iwaniw

*Temple Within School of Sacred Studies*

Saturday, October 28, 2017 from 1:00 until 4:00 p.m.

As spiritual beings having a human experience during a profoundly expansive time in the evolution of the earth and her inhabitants, the purpose of this much anticipated class is to strengthen intuitive channels and create spiritual leadership skills, while maintaining a healthy balance between our daily lives of work and play and our spiritual life.

Drawn from their decades of experience as metaphysical teachers, Seers, mentors and students of the esoteric, Denise and Laura present a course of teachings and corresponding exercises designed for serious seekers and practitioners of the spiritual arts. Here are just a few of the topics to be discussed and accompanied by actual practice during the workshop intensive:

- Proper 'message circle' protocol and instructions.
- The importance of sacred space.
- How to "scan" for spiritual and energy disturbances in a solitary or group setting.
- Sending healing assistance to those in need.
- How to place people in need of healing into a healing circle setting.
