Join us for our 9<sup>th</sup> year of monthly gatherings where we come together in sacred space to explore the depths and heights of the ancient Mystery School teachings from many cultures.

Each month, we delve into spirit directed topics, aided by meditation, the study of ancient esoteric texts and teachings as well as the practical application of these wisdom teachings in modern day life.

Every session is unique, and independent of one another. The group energy that is built is most powerful and rewarding to all who participate.
